

I signed up for the New Jersey Do Not Call list as soon as it was made available to New Jersey residents, since that time I have not received one phone call from a telemarketer. I could not be happier. Before signing up for the Do Not Call list I was receiving at least 6 calls a day from different telemarketers. Instead of spending valuable time with my children I was answering the phone call of someone trying to sell me something I didn't want. If we wanted what these telemarketers were selling we would call them. This is the best plan ever and I would be very disappointed to see it destroyed.
